The University of Wisconsin–Madison occupies ancestral Ho-Chunk land, a place their nation has called Teejop (day-JOPE) since time immemorial. In an 1832 treaty, the Ho-Chunk were forced to cede this territory. Decades of ethnic cleansing followed when both the federal and state government repeatedly, but unsuccessfully, sought to forcibly remove the Ho-Chunk from Wisconsin. This history of colonization informs our shared future of collaboration and innovation. Today, UW–Madison respects the inherent sovereignty of the Ho-Chunk Nation, along with the eleven other First Nations of Wisconsin.

ABOUT THE DATA DIGEST

Welcome to the 2024–2025 edition of the *Data Digest*, which marks the 29th year of production for this compendium of key data and information about the university, developed by the Office of Data, Academic Planning, and Institutional Research.

The purpose of the *Data Digest* is to serve as a source of official numbers. It provides comprehensive quantitative information on major dimensions of the university, including students, faculty, staff, budget, and expenditures. It is possible to measure many of the attributes of the university in a variety of ways, depending on different definitions. UW–Madison's official numbers and definitions are an important point of reference to other data about the university from other sources.

Data, Academic Planning, and Institutional Research thanks the following offices for contributions to and collaborations for the Data Digest: Business Services, Madison Budget Office, Student Financial Aid, Facilities Planning and Management, the UW Foundation and Alumni Association, UW System Trust Fund Operations, the Wisconsin Alumni Research Foundation, the General Library System, Office of the Registrar, University Housing, and Office of Human Resources. We are tremendously grateful to the Office of Strategic Communication for their help with the production of this document.

Although primarily intended for audiences within UW–Madison, we know that people beyond the university also benefit from this publication. We hope that you learn something new about UW–Madison from this edition of the *Data Digest*.

Source: UW–Madison Student Information System data. Notes: Graduate students are students enrolled in master's and research doctoral programs. Clinical doctorate students are enrolled in non-research focused doctoral programs. Race/ethnicity categories and reporting methodology represent federal reporting categories and methodology. See Technical Notes #1 and #2. All domestic (non-international) students who indicate Hispanic ethnicity are reported as Hispanic, regardless of other racial information provided. Non-Hispanic domestic students who indicate more than one race are reported in the "2 or more races" category. All other non-Hispanic domestic students who indicated a single race are reported in that category. Students of color and underrepresented students of color counts are provided because they cannot be derived from the race/ethnic categories alone. Underrepresented students of color are domestic students who identify as Hispanic/Latino, Black/African American, American Indian/Alaska Native, Native Hawaiian/Pacific Islander, or Southeast Asian (Hmong, Vietnamese, Laotian, Cambodian). The Students of color category includes all the underrepresented categories as well as other students who identify as Asian. For a report that counts students in all selected races and ethnicities, see <https://data.wisc.edu/student-trends/>.

Diversity Categories as a Percentage of Fall Semester Enrollment

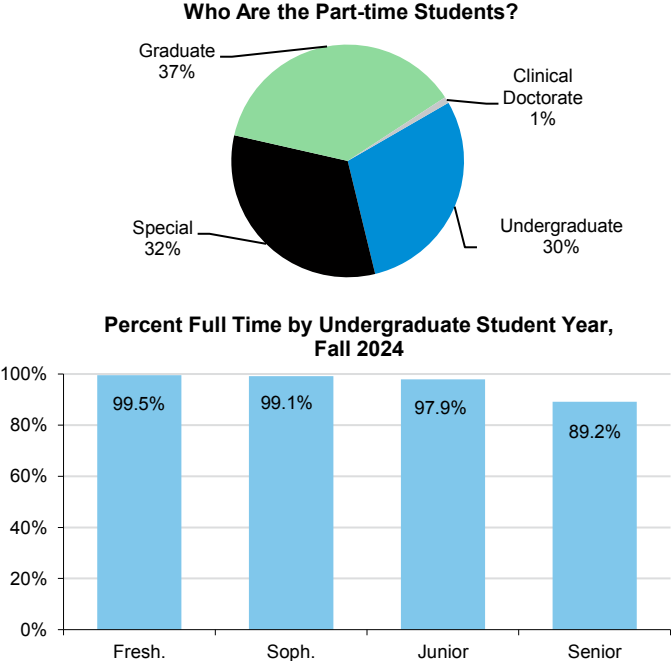

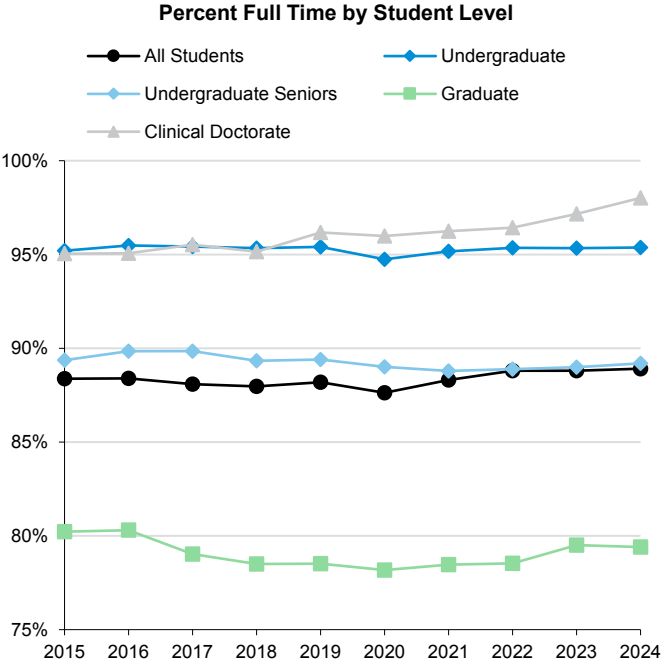

Underrepresented students of color are domestic students who identify as Hispanic/Latino, Black/African American, American Indian/Alaska Native, Native Hawaiian/Pacific Islander, or Southeast Asian (Hmong, Vietnamese, Laotian, Cambodian). Students of color includes all the underrepresented categories as well as other domestic students who identify as Asian. See Technical Notes #1 and #2.

Notes: Prior to 2021, submission of ACT and/or SAT scores was required as part of the admission process. Starting in 2021, submission of ACT and SAT scores was made optional per UW System Board of Regents policy. Starting in 2021, tabulations of ACT and SAT averages only include scores for students who requested they be considered. The SAT scores include the Math and Critical Reading sections through 2016, and the Evidence-Based Reading and Writing and Math starting in 2017.

Notes: Faculty members employed on 12-month contracts are included, but their salaries have been converted to 9-month rates. Medical schools are excluded. The average salaries reported to the AAUP by all institutions are affected by several factors, including faculty turnover and promotions, and individual salary adjustments for promotion, competitive market, or equity, in addition to the institution's announced annual increases. The rank-by-rank method of salary comparison and UW–Madison's peer group for purposes of salary comparisons was established by the Governor's Commission on Faculty Compensation in 1984. It was reaffirmed in the 1992 report of a subsequent Governor's Commission on University of Wisconsin System Compensation.

Notes: These student levels represent the level of the degree associated with the student's primary academic program. Undergraduates are in a program that awards bachelor's degrees. Graduate students are enrolled in master's, specialist, or research doctoral programs. Clinical doctorate students are enrolled in non-research focused doctoral programs. Special students are not enrolled in a degree-granting program.

Source: Retention Awards Data Views. Notes: Completions include those who graduated within six or nine years of their first term in a graduate career. Students are counted as part of an entrance cohort for completions in their first term in a given PhD plan. Time-to-degree calculations include those who graduated within a given time period, regardless of their entrance term. Students in multiple programs are counted in each school/college of their PhD program, but only once in the total count for time-to-degree calculations, and once for each cohort they enter for completions calculations.

Source: Credits Follow the Instructor data views. Notes: Under the "Credits Follow the Instructor" methodology, student credit hours are attributed to the departments funding the section instructor. Under the "Credits Follow the Department" methodology, credit hours are attributed to the department listing the course in the schedule of classes. These departmental credits are then aggregated to the school/college (division) level based on the home of the department.

For 2023–24, double room plus board was \$11,550; budgeted capacity was 8,852 undergraduate students; 93.2% of the freshmen class lived in university residence halls. Occupancy and budgeted capacity were both down in 2023–24 due to enrollment leveling off to better align with building design capacities and allowing more of the dens and lounges to return to their intended purpose.

University Housing -- Apartments

Revenue (\$)	11,172,267	12,469,552	13,491,378	14,177,890	14,720,700	14,718,090	12,813,358	16,018,156	17,346,207	18,435,242

The total capacity for University Apartments in 2023–24 was 1,227. Occupancy in 2023–24 was 98%, due in part to the challenges renters face finding alternative affordable housing in the downtown/campus market.

Wisconsin Union

Revenue (\$)	50,042,388	46,007,430	48,170,963	52,848,066	55,785,583	45,551,298	23,751,611	43,121,482	50,785,229	66,661,276

During 2023–24, there were 4,474,100 visits to the two primary Union buildings, Memorial Union and Union South. These visitors used the Union facilities for arts and cultural events, public lectures, campus tours, continuing education, recreation and lake activities, dining and hospitality, conferences and general meetings, and for study space. During 2023–24, the Union sponsored 11,536 events through its division of Social Education and had 509,667 attendees. The Union also registered 1,157 student organizations and clubs.

Transportation Services

Revenue (\$)	23,065,755	23,687,171	23,983,823	26,031,410	28,083,900	22,346,866	15,773,699	26,795,040	32,088,700	34,660,256

As of September 1, 2023, on-campus parking included 12,909 spaces, of which 9,101 were reserved for annual permit parking. Transportation Services continued the reduced cost parking program in 2022-23, offering 1,554 reduced cost permits. The department supported Madison Metro's public feedback campaign for their city bus redesign and BRT projects.

Students made 108,857 visits to receive clinical (66,698), athletic training (5,179), wellness (235) and counseling/consultation services (28,134) during 2023–24.

Recreation & Wellbeing

Revenue (\$)	5,722,295	6,337,889	6,908,055	5,252,422	5,723,030	9,754,066	13,601,819	11,265,812	19,404,663	21,448,993

From July 1, 2023–June 30, 2024, Rec Well welcomed 1,869,722 participations in its indoor facilities, Bakke Recreation & Wellbeing Center, Nicholas Recreation Center, and Nielsen Tennis Stadium. This included more than 70% of the university's students averaging 41 visits during the academic year. We were home to more than 50 registered student organizations and supported 3,449 sport club participations. Rec Well served as the second largest American Red Cross certifier in Wisconsin, completing 768 certifications. We also held 4,679 personal training sessions, hosted 1,320 summer campers, had 44,056 intramural sports participations, and provided professional growth and development to 1,222 student employees. Beginning in FY23, the financials reporting includes debt service for the infrastructure master plan; the amount of expenses was \$6.4M and \$6.7M in FY23 and FY24, respectively.

Intercollegiate Athletics

Revenue (\$)	104,253,712	114,493,143	127,095,587	133,627,878	138,115,841	130,501,537	111,617,560	138,122,321	184,722,090	202,869,963

Revenues and expenses came back near the anticipated level pre-pandemic. The South Endzone (SEZ) was started in November 2022 and completed in time for the first football game in early FY23. During April 2022 the Kohl Center (KC) capital project was started. Our budget for ticket sales was conservative based on the unknown at the time for what would be allowed in the stadiums and how our fans would react to being in person again. We were within 2.4% of our budget. Attendance was strong. We were only under budget because we budgeted for 18 home MBB games and there were only 16. Our camps revenue started again but was under budget due to Covid restrictions on camp size and also a lack of facilities due to construction projects across campus.

Definitions

Auxiliary: An entity that exists predominately to furnish goods and services to students, faculty or staff and that charges a fee directly related to, although not necessarily equal to, the cost of the goods or services. The general public, incidentally, may be served by some auxiliary enterprises.

Cohort: A group of people who reach a milestone event together at the same time. For example, a group of students who matriculate at the same time is an “entering cohort.” On the other hand, a group of students who receive their degrees on the same date comprise a “degree cohort.”

Field Section: A course section (class) in which the students and instructor are often off-campus. Examples include pharmacy students receiving instruction in an actual pharmacy, botany students collecting specimens in a forest, and education students practicing teaching in schools.

FTE: Full-Time Equivalent (FTE) is a metric which counts the number of part-time and full-time individuals together, but each individual is counted as a specific fraction of a full-time individual. For example, FTE staff counts each worker as the fraction equal to their weekly scheduled work hours divided by a standard 40-hour workweek. In another example, FTE enrollments count each undergraduate student the fraction equal to their credit load divided by a standard load of 15 student credit hours.

Group Instruction: Instruction delivered in lecture, discussion, laboratory, or seminar sections. Section meeting times and places are published before the start of the semester in the university schedule of classes.

High School Rank Percentile is equal to $((\text{HS Class Size} - \text{HS Class Rank}) \div \text{HS Class Size}) \times 100$, and the final decimals are truncated.

Individual Instruction: Instruction delivered in conference and field sections. Often only one or two students are enrolled in these sections. Meeting times and places are not published in the university schedule of classes and are worked out by the instructors and students after the semester starts.

Library Volume: A volume is a single or physical unit of any printed, typewritten, handwritten, mimeographed, or processed work distinguished from other units by a separate binding, encasement, portfolio, or other clear distinction, which has been cataloged, classified, and made ready for use, and which is typically the unit used to charge circulation transactions. It excludes microforms, non-print materials, non-cataloged government documents, maps, and audio/visual materials.

Limited Staff: An individual holding a special appointment to an administrative position made for persons involved directly in formulating, interpreting, and monitoring policies or major programs on behalf of the administrative officer with whom such policies or program directions originate. Limited staff serve at the pleasure of the authorized official who made the appointment.

Post-Degree Training Staff: An individual who is not enrolled in a degree program and who is appointed primarily for the pursuit of advanced study or research, usually at a post-doctoral level. The work of the individual is independent and self-directed, subject only to supervision as given by a teacher to a student. These individuals were previously called Employees-in-Training.

Special Students: Students who are enrolled in for-credit courses but are not enrolled in a degree program.

Technical Notes

- Note 1** **Federal Race and Ethnicity:** Reporting of race/ethnicity data follow the federal two-part question that asks first about Hispanic heritage and then about race. Individuals may choose to report more than one race. Individuals who reported Hispanic heritage are counted as Hispanic, regardless of race. Those who report two or more races and do not indicate Hispanic heritage are reported in the two or more races category. Individuals who choose not to report a racial/ethnic category are included with White/Unknown.
- Note 2** **“People of Color”** refers to domestic students and employees who identify, alone or in combination with other racial/ethnic categories, as African American/Black, American Indian/Alaska Native, Asian, Hispanic/ Latino(a), or Native Hawaiian/Pacific Islander. “Underrepresented people of color” refers to those who identify, alone or in combination with other racial/ethnic categories, as African American/Black, American Indian/Alaska Native, Hispanic/ Latino(a), or Native Hawaiian/Pacific Islander, and for students, the Southeast Asian groups: Cambodian, Hmong, Laotian, Vietnamese.
- Note 3** **Part-time Students:** Full-time/part-time status for students is based on credit load and varies by degree program. Undergraduate and special students are part-time if they are enrolled in fewer than 12 credits. Most master’s and doctoral students are part-time if they are enrolled in fewer than 8 credits.
- Note 4** **Enrollment Categories:** Enrollment categories have been adjusted to match degree levels reported in federal IPEDS classifications. Enrollments previously reported as “Professional” are now reported as either clinical doctorates (Au.D, J.D., M.D., D.N.P., Pharm. D., D.P.T., O.T.D., and D.V.M.) or master’s level degrees (M.P.H., L.L.M., and M.P.A.S.) and included in the “Graduate Student” category.
- Note 5** **Impact of UW-Extension Restructuring on UW–Madison:** In July 2018, the UW System Restructuring Project began the transfer of certain units from UW-Extension to UW-Madison. These units were fully integrated with UW-Madison by July 1, 2019.
- Note 6** **Non-duplicated Headcount:** An individual who holds multiple appointments is counted only once. If the individual holds more than one category of appointment, that person is reported under the first appointment category that applies, according to the order given in the table. For example, a faculty member who also holds a limited staff position is reported as faculty. Approximately 100 individuals hold both faculty and limited appointments. An individual with both instructional and other academic staff appointments is shown as instructional academic staff.
- Note 7** **Time until Tenure Promotion** is calculated as the effective date of promotion minus the date of hire in a probationary faculty appointment, plus time on the tenure clock for service at another university. Years are not adjusted for time on leave or UW–Madison tenure clock extensions.
- Note 8** **Definition of Research Expenditures:** Research expenditures as shown in the National Science Foundation Higher Education Research and Development Survey differ from research expenditures as shown in UW–Madison’s budget and expenditure reports as expenditures reported in the NSF Survey include all indirect cost revenue even though some of those revenues are not directly expended on the research function.

- Note 9** **Number of Faculty with Research Awards:** Statistics shown represent the number of faculty who received new awards in that year. In any given year, approximately 60 to 70% of faculty members conduct sponsored research projects, which were awarded either in the current or prior years.
- Note 10** **Fiscal corrections for fiscal years 2018 and 2019:** In these years the credit side of the campus common systems allocation was found to be improperly using the program codes used by the departments being charged, when these credits should have been allocated entirely to program code 1. Relevant data for those years has been adjusted to reflect the correction and may differ from previous editions of the *Data Digest*.
- Note 11** **Time-to-Degree Methodology:** In 2012 the methodology used to calculate undergraduate time-to-degree changed, resulting in modified values for the average time-to-degree. Time-to-degree now uses a degree cohort and includes graduates completed in fewer than 20 years. In previous years, time-to-degree was calculated using an entrance cohort, and only included those graduates who completed their degrees within 6 years.
- Note 12** **COVID-19 Disruption:** Starting in March 2020, the SARS-CoV-2 virus and COVID-19 pandemic had significant impacts on campus that may result in dramatic temporary shifts of data trends in several areas covered by the Data Digest.
- Note 13** **Student Legal Sex Reporting:** As of fall 2024, collection of student legal sex on admissions applications is not consistent across all student levels. Applications used by some programs collect legal sex values for Female, Male, and Another Legal Sex, while others collect only Female and Male.
- Note 14** **Research Expenditures:** A change in methodology occurred in academic year 2022-23 regarding how UW-Madison accounts for certain fringe benefit expenses. Historically fringe expenses charged to a central pool were transferred to UW System at the end of each fiscal year. Starting in fiscal year 2023, these fringe expenses were no longer transferred to UW System and instead were charged to a central UW-Madison funding source. This change in methodology contributed to the large change in research expenditures in the "Other Divisions" total.
